03

Engineering and Application Qualifications

Held by the application affiliate

Application and engineering affiliate under the same management team, providing installation and site service for Zhuohuang systems in Jiangsu and the surrounding provinces.

Entity	Relationship
Zhongshi (Henan) Construction Co., Ltd. – Nanjing First Branch	Application and engineering affiliate, same management team

Qualification held
Class I specialist contracting – waterproofing, corrosion protection and thermal insulation engineering
Class II general contracting – petrochemical engineering construction
Class II specialist contracting – environmental protection engineering
Safety Production Licence (Yu) JZ-AXZZ [2024] No. 000173, valid 10 January 2024 to 10 January 2027

These qualifications are held by the affiliate and apply to construction and installation work carried out in the People's Republic of China. They are listed so that overseas customers understand the installation capability behind the material supply; they are not a certification of the materials themselves.

04

Product Recognition

Award / rating	Note
China Engineering Construction Recommended Product	Awarded for the company's anti-corrosion product series
China Anti-Corrosion Industry Top Ten Brands	Awarded for the company's anti-corrosion product series
Quality Assurance National Standard Qualified Product	Awarded for the company's anti-corrosion product series
AAA Enterprise Credit Rating	Corporate credit assessment certificate

Awards and ratings above were issued to Nanjing Zhuohuang Industrial Technology Co., Ltd. by Chinese industry bodies and credit assessment organisations. Certificates are available on request. They are industry recognition, not product certification; selected product properties and performance are supported by the independent third-party test reports issued separately.

05

Product Test Evidence

Independent laboratory reports

Selected product properties and performance are supported by independent third-party test reports from laboratories accredited under the Chinese CMA scheme and CNAS, which operates under the ILAC mutual recognition arrangement. A test report records the properties measured on the sample submitted; it is a test result, not a system certification. Every report is supplied in full on request, together with a faithful English transcription.
